Dear Dan:

This is just a note to express my appreciation for the excellent job you and your company did on re-siding my house. I can't remember the individual's last names that worked on the job, but I do remember it was Wayne, Byron, and the third person I just can't remember. However, I do want you to express my appreciation to them. They handled themselves in a very professional manner, did an excellent job, cleaned up after their work each day, and were very courteous and professional in their approach.

I commend your company for the work they did and although you had originally quoted some year or year and a half earlier, you maintained the same price and requested no extras. Even though I do recognize there were a few extras.

Dan, thanks again most specifically for your help and please feel free to use me as a reference on any other work. Thanks again for everything you did.

Sincerely,

Peter A. Stipp
Vice President
